

A green-tinted photograph of a group of people in a meeting, overlaid with the event title in large white text.

Farewell Colloquium

Prof. Frank Große

When: Thursday, June 7, 2018

Where: Lecture Hall „Nucleus“ (invited guests)

Leibniz Institute on Aging (FLI)
Beutenbergstr. 11, 07745 Jena

Schedule:

14:00 **Welcome by the Directors**

14:10 **Greetings by Prof. Dr. Thorsten Heinzel** on behalf of the FSU, Institute of Biochemistry and Biophysics & Centre of Molecular Biomedicine

14:20 **Dr. Prasun Chakraborty**, University of Dundee, Dundee, UK
(former Ph.D. student)
DHX9 plays an important role in R-loop biology

14:45 **Prof. Dr. Lisa Wiesmüller**, Ulm University, Germany
(former colleague and long-standing cooperation partner)
From brainstorming to data: p53 regulates DNA recombination and replication

15:10 **Dr. Heiko Maacke**
(former colleague at Heinrich Pette Institute Hamburg)
Darth Vader, the princess and biochemistry

15:35 **Prof. Dr. Heinz-Peter Nasheuer**, National University of Ireland, Galway, Ireland
(former Ph.D. student and research associate)
Mechanisms and regulation of mammalian DNA replication

16:00 **Greeting words by Prof. em. Dr. Siegmund Reißmann**, and others

16:15 **Farewell words by Prof. em. Dr. Frank Große**

16:30 **Conclusion by the Directors**

Reception

17:00 **Barbeque** together with the staff of the FLI
